**Preparation for the Fair**

- Review the list of participating schools and programming schedule prior to the event day so you can plan your visit.
- Prepare questions to ask schools:
  - "What qualities do you look for in a student?"
  - "Do you have any suggestions for what a student can do to be a competitive applicant?"

**Chat Room Overview, Etiquette & Tips**
Each booth will have admissions officers (and sometimes medical student students) available to chat.

- Public and private chat options are available, however some schools may not have time to chat privately.
- Some schools have limited staff and may not be able to respond immediately during busy periods.
- Avoid asking questions that have already been asked or are readily available in material provided by the school.
- Be sure to keep your tone professional and respectful.
